

NIKI'S MENDED HEART

Niki's Foothills Animal Rescue story starts on February 15th, 2022; she was 5 months old when she came into our care from a local municipal shelter partner.

Upon intake Niki seemed healthy, but when we scheduled her for her spay surgery the veterinary team noticed a heart murmur. Foothills Animal Rescue coordinated for Niki to undergo an echocardiogram where they discovered a severe congenital pulmonic stenosis. Niki required a catheter-based intervention. Without intervention, Niki had a pre-mature life expectancy, and her quality of life would have been limited in activity. In May, she underwent surgery to mend her broken heart. Niki recovered in foster care for 5 ½ months. Until July 30th when she got adopted by a lovely family out at a community event at the local YMCA and is expected to now live a full healthy life. Now named Mallie (aka Malibu), she is enjoying her life with her three human sisters.

Because of the generosity of our community, Foothills Animal Rescue heavily invested in Niki's medical care and enrichment while she was waiting to find their forever home. Niki was rescued, cared for, and adopted from Foothills Animal Rescue.

SEBASTIAN'S INJURY

Sebastian came to Foothills Animal Rescue from a partner shelter. Upon intake we noticed that this sweet boy had some wounds and began treating him immediately.

After x-rays Sebastian's right front leg showed abnormalities that would be best to be amputated. Sebastian underwent surgery to remove his leg and recovered in foster care. One month later, after Sebastian was fully recovered, he found his forever home.

MESSAGE FROM THE CEO

Shannon Valenzuela

2022 brought unique challenges that tested our organization; but the staff, volunteers, community partners and our donors continued to amaze me. Collectively we deepened our investment in the animals in our care and continued our mission to save lives through the rescue, care and adoption of cats and dogs into our community.

Inflation impacted all aspects of our work: the cost of medical treatment, food, utilities and worst of all the ability for people to adopt. Compound those challenges with an outbreak of ringworm that led us to make a difficult decision to quarantine our facility and halt all programming. Yet throughout these challenging situations, together our community of volunteers and generous supporters never flinched, demonstrating their passion and commitment to the animals.

Thank you all for continuing to be a part of the Foothills Animal Rescue community.

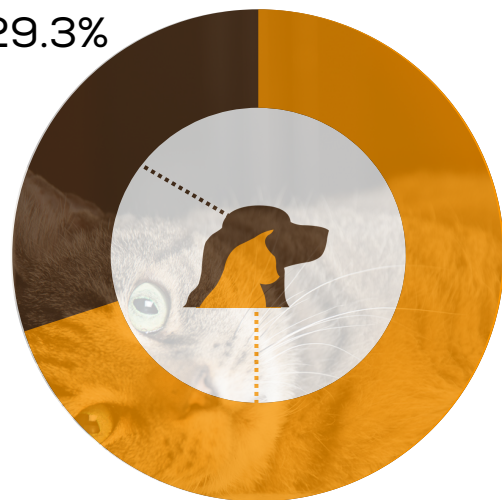

Shannon
